YOUR PAY v INFLATION 2010 ~ 2014

Below is a chart that compares Local Government Pay rises against Inflation over the last 4 years.

- In the past 4 years the accumulative rise in inflation has been over 20%.
 - In this same 4 year period your pay has increased by an accumulative amount of only 2.67%.
- This shows clearly the impact the austerity measures are having on Local Government workers' standard of living.

GMB Scotland, the Local Government Trade Union is campaigning to see this trend reversed.

It's time to see living standards rise again ~ It's time for a decent and fair pay increase
